23rd October 2017

The Director,
Uganda Blood Transfusion Services,
Plot 69/3 Nakasero Hill Road,
P.O.Box 1772, Kampala.

Dear Sir / Madam,

RE: REQUEST FOR A UNIT OF HIV-POSITIVE WHOLE BLOOD

I am the above mentioned, adult male Ugandan. I am a graduate of Science Technology in Biology (Kyambogo University, 2012) and director of Biobert Research Group Limited.

Currently I am working on developing miniaturized test kits for identifying bacterial infections. As a part of my project design, I intend to employ certain components of HIV-positive whole blood, which is the reason for this request.

I guarantee that the blood will strictly be used for research purposes and that I will be solely responsible for issues that may arise due to the unit of whole blood I take from your facility.

I will be grateful for your positive feedback.

Yours faithfully,

Robert Mijumbi.
